

HEATING, VENTILATION AND AIR CONDITIONING 2017 Energy Efficiency Rebate Form

ELIGIBILITY CRITERIA

- New equipment must be installed in 2017 and must be installed on the cooperative's lines.
- Rebates are limited and will be paid on a first-come, first-served basis. Rebates are issued as a credit on your electric bill.
- Rebate not to exceed 50% of the cost of equipment.
- Rebates not allowed for a measure and a component of that measure. For example, if an air source heat pump has a variable speed blower motor, the air source heat pump qualifies for a rebate but not the variable speed blower motor.
- Additional eligibility criteria may apply. Contact cooperative for details.

All documentation listed below must be submitted no later than 3 months after install date:

- ✓ This rebate form.
- ✓ A copy of your receipt or invoice for each item purchased.
- ✓ For all air conditioners, heat pumps, and furnaces with efficient ECM blower motors, include documentation showing the equipment has been installed.
